Peter H. Rossi, Jon E. Simpson, and JoAnn L. Miller

The Case of the Missing Victims: Gunshot Woundings in the National Crime Survey 91
Philip J. Cook

Crime, Time, and Punishment: An Exploration of Selection Bias in Sentencing Research 103
Marjorie S. Zatz and John Hagan

JOURNAL OF QUANTITATIVE CRIMINOLOGY

Vol. 1, No. 2 June 1985

CONTENTS

Latent-Variable Models in Criminological Research: Applications and a Generalization of Joreskog's LISREL Model 127
Douglas A. Smith and E. Britt Patterson

Risk Assessment vs Real Prediction: The Prediction Problem and Public Trust 159
Lyle W. Shannon

Statistical Tests of Discrimination in Punishment 191
Samuel L. Myers, Jr.

Selected Federal Research Grants for the Fiscal Year 1984 219

JOURNAL OF QUANTITATIVE CRIMINOLOGY

Vol. 1, No. 3 September 1985

CONTENTS

Age-Cohort Analysis of Arrest Rates 227
David F. Greenberg and Nancy J. Larkin

Measures of Opportunity and the Calculation of the Arson Rate: The Connection Between Operationalization and Association 241
Leon E. Pettiway

Aggregation, Ratio Variables, and Measurement Problems in Criminological Research 269
Robert Nash Parker

Sentencing Disparity: An Analysis of Judicial Consistency 281
Patricia L. Brantingham

Factor Analysis Applied to Magnitude Estimates of Punishment Seriousness: Patterns of Individual Differences 307
Kent A. McClelland and Geoffrey P. Alpert

JOURNAL OF QUANTITATIVE CRIMINOLOGY

Vol. 1, No. 4 December 1985

CONTENTS

Violent Recidivism and Chronicity in the 1958 Philadelphia Cohort 319
Elizabeth S. Piper

Sex Differences in Self-Reported Delinquency and Official Records: A Multiple-Group Structural Modeling Approach 345
Robert J. Sampson

The Judicial Response to Crime and the Criminal: A Utilitarian Perspective 369
Thomas Orsagh

Projecting Crime Rates: An Age, Period, and Cohort Model Using ARIMA Techniques 387
Daniel H. Klepinger and Joseph G. Weis
